LINNISAA', UH., 2017, EVALUASI PENGELOLAAN OBAT ANTI TUBERKULOSIS PADA TAHAP PENYIMPANAN DAN DISTRIBUSI DI INSTALASI FARMASI DINAS KESEHATAN KABUPATEN SUKOHARJO TAHUN 2016, SKRIPSI, FAKULTAS FARMASI UNIVERSITAS SETIA BUDI, SURAKARTA.

Pengelolaan obat merupakan salah satu segi manajemen Dinas Kesehatan yang penting karena akibat pengelolaan yang buruk akan memberikan dampak negatif terhadap mutu pelayanan. Penelitian ini bertujuan untuk mengetahui pengelolaan obat anti tuberkulosis pada tahap penyimpanan dan distribusi di Dinas Kesehatan Kabupaten Sukoharjo berdasarkan standar Kementerian Kesehatan RI sehingga dapat dijadikan sebagai dasar evaluasi bagi pengelolaan obat untuk meningkatkan mutu pelayanan.

Penelitian ini merupakan penelitian non eksperimental dengan rancangan penelitian deskriptif. Data dikumpulkan secara retrospektif di Instalasi Farmasi Dinas Kesehatan Kabupaten Sukoharjo yang berupa data sekunder. Data sekunder diperoleh dengan penelusuran dokumen-dokumen tahun 2016. Data yang diambil kemudian dianalisis menurut indikator dari Kementerian Kesehatan RI.

Hasil penelitian menunjukkan bahwa pengelolaan obat anti tuberkulosis pada tahap penyimpanan di Instalasi Farmasi Dinas Kesehatan Kabupaten Sukoharjo yaitu persentase obat rusak atau kadaluwarsa 2,86% dengan nilai sebesar Rp13.419.060,00. Dan hasil penelitian tahap distribusi tingkat ketersediaan obat adalah 100%, ketepatan distribusi obat adalah 75%, persentase penyimpangan jumlah obat yang didistribusikan adalah 0%, rata-rata waktu kekosongan obat adalah 0%. Kegiatan penyimpanan obat di Instalasi Farmasi Dinas Kesehatan Kabupaten Sukoharjo belum sesuai dengan standar Kementerian Kesehatan RI. Sedangkan kegiatan distribusi sudah sesuai dengan standar Kementerian Kesehatan RI.

Kata Kunci: pengelolaan obat, penyimpanan, distribusi, evaluasi

ABSTRACT
