

BAB V

PENUTUP

5.1 Kesimpulan

Niat menggunakan pembelajaran online merupakan perilaku dokter yang berkeinginan untuk menggunakan pembelajaran online melalui situs Digimed.id. Fenomena yang terjadi dalam menggunakan pembelajaran online melalui situs Digimed.id yang dirasa masih kurang dalam penggunaannya di Indonesia. Tujuan dari penelitian ini yaitu melakukan kajian kembali faktor-faktor yang secara teoritis dapat membentuk niat penggunaan pembelajaran online pada tenaga medis. Faktor-faktor yang membentuk niat menggunakan terdapat tujuh faktor yang terbagi menjadi sembilan hipotesis.

Hasil uji hipotesis yang telah dilakukan ada tujuh hipotesis yang terdukung dan terdapat dua hipotesis yang tidak terdukung. Hipotesis pertama, kepuasan dan niat menggunakan pembelajaran online dinyatakan terdukung atau berpengaruh positif, artinya dokter mempunyai kepuasan tinggi terhadap situs Digimed.id sehingga meningkatkan dokter untuk menggunakan situs Digimed.id. Hipotesis kedua, variabel kegunaan persepsian dan kepuasan dinyatakan terdukung atau berpengaruh positif, artinya dokter merasakan manfaat atau kegunaan dari situs Digimed.id yang tinggi sehingga meningkatkan kepuasan dokter untuk menggunakan pembelajaran online. Hipotesis ketiga, variabel berbagi pengetahuan dan kepuasan dinyatakan terdukung atau berpengaruh positif, artinya dokter mempunyai berbagi pengetahuan yang tinggi dengan dokter lain sehingga meningkatkan kepuasan untuk menggunakan pembelajaran online.

Hipotesis keempat, variabel kecocokaan tugas teknologi dan kegunaan persepsian dinyatakan terdukung atau berpengaruh positif, artinya dokter merasa situs Digimed.id sesuai dengan pekerjaannya sehingga meningkatkan kegunaan persepsian untuk menggunakan pembelajaran online. Hipotesis kelima, variabel kecocokan tugas teknologi dan berbagi pengetahuan dinyatakan terdukung atau berpengaruh positif, artinya dokter merasa situs Digimed.id cocok dengan pekerjaannya sehingga meningkatkan berbagi pengetahuan dengan dokter lain untuk menggunakan pembelajaran online. Hipotesis keenam, variabel keterbukaan dan kegunaan persepsian dinyatakan terdukung atau berpengaruh positif, artinya dokter yang mempunyai keterbukaan tinggi dapat meningkatkan kegunaan persepsian untuk menggunakan pembelajaran online.

Hipotesis ketujuh, variabel keterbukaan dan berbagi pengetahuan dinyatakan tidak terdukung, hal ini menjelaskan bahwa kurangnya keterbukaan dokter dalam menggunakan situs Digimed.id cenderung menurunkan untuk berbagi pengetahuan dengan dokter lain dalam menggunakan pembelajaran online. Hipotesis kedelapan, variabel pengaruh sosial dan kegunaan persepsian dinyatakan terdukung atau berpengaruh positif, artinya semakin tinggi dokter lainnya untuk mempengaruhi dokter tersebut maka dapat meningkatkan kegunaan persepsian untuk menggunakan pembelajaran online. Hipotesis kesembilan, variabel pengaruh sosial dan berbagi pengetahuan dinyatakan tidak terdukung, hal ini menjelaskan bahwa kurangnya dokter lain dalam mempengaruhi teman sesama profesi dokternya dapat menurunkan berbagi pengetahuan.

Berdasarkan hasil penelitian dapat disimpulkan bahwa faktor yang dapat membentuk niat menggunakan pembelajaran online adalah kepuasan yang dimediasi kegunaan persepsi dan berbagi pengetahuan yang dipengaruhi variabel pendahulu kecocokan tugas teknologi, keterbukaan dan pengaruh sosial.

5.2 Keterbatasan Penelitian

Studi ini memiliki dua keterbatasan yaitu pertama, konsep dari definisi berbagi pengetahuan dan kepuasan kurang jelas untuk mengarah pada perilaku atau persepsi dalam menggunakan sistem informasi. Kedua, penyebaran kuesioner dilakukan secara online hanya mendapatkan respon sedikit sehingga peneliti mencari solusi dengan menyebarluaskan kuesioner secara offline. Responden yang didapatkan juga cukup kecil. Hal ini dikarenakan responden dokter yang memiliki profesi yang mempunyai tingkat kesibukan yang tinggi dan terbatas untuk dapat melakukan pengisian kuesioner. Keterbatasan jumlah responden tersebut memberikan pengaruh pada *loading factor* yang rendah, sehingga beberapa pertanyaan harus dihilangkan karena tidak valid.

5.3 Implikasi Penelitian

5.3.1 Implikasi Teoritis

Studi ini mampu membangun model alternatif dalam pembentukan niat menggunakan pembelajaran online. Pembentukan situs Digimed.id didasarkan perspektif kepuasan yang memasukkan variabel kepuasan yang dimediasi oleh kegunaan persepsi dan berbagi pengetahuan yang dipengaruhi variabel pendahulu kecocokan tugas teknologi, keterbukaan dan pengaruh sosial. Namun

studi ini masih terbatas pada wilayah Solo maka studi kedepan perlu memperluas wilayah penelitian untuk meningkatkan generalisasi.

5.3.2 Implikasi Praktis

Hasil ini dapat memberikan masukan kepada pengelola situs Digimed.id dalam meningkatkan penggunaan situs untuk pembelajaran online bagi dokter.

5.4 Saran

Berdasarkan hasil yang diperoleh peneliti memberikan saran bagi pihak pengelola situs Digimed.id sebagai berikut:

5.4.1 Studi Lanjutan

Studi kedepan peneliti perlu bekerjasama dengan asosiasi-asosiasi dokter dalam penyebaran kuesioner dengan mewajibkan dokter untuk menggunakan situs Digimed.id. Sehingga peneliti akan mendapatkan responden lebih banyak dan cepat dalam penyebaran kuesionernya.

Studi kedepan juga perlu menambahkan variabel dalam mempengaruhi niat menggunakan situs-situs pada sistem informasi yang belum termuat dalam studi ini. Studi kedepan juga harus memperjelas konsep dari definisi berbagai pengetahuan dan kepuasan yang mengarah pada perilaku atau persepsi dalam menggunakan sistem informasi.

5.4.2 Bagi Perusahaan

1. Hasil penelitian menemukan penyebab niat menggunakan pembelajaran online adalah tingginya kepuasan yang dirasakan pengguna. Untuk itu pengelola situs Digimed.id sebaiknya lebih aktif dan produktif lagi dalam mengshare informasi terbaru yang lebih menarik tentang pembelajaran online dunia

kesehatan. Hasil penelitian juga menunjukkan kegunaan persepsi mempunyai peran dalam membentuk kepuasan. Pengelola situs sebaiknya perlu menambahkan manfaat dan kegunaan yang lebih banyak dan besar lagi. Bentuk dari manfaat dan kegunaan tersebut misalnya memberikan informasi yang lebih detail dan menarik, menyediakan fasilitas yang dapat memberikan kepuasan. Hasil penelitian juga mengindikasikan berbagi pengetahuan mempunyai peran dalam membentuk kepuasan. Hasil tersebut memberikan penjelasan bahwa pengelola situs sebaiknya menambahkan fitur yang lebih baik untuk berbagi informasi. Hasil penelitian menemukan kecocokan tugas teknologi pengguna tinggi sehingga dapat merasakan kegunaan dari situs Digimed.id. Pengelola situs sebaiknya perlu menyesuaikan materi pembelajaran terkait dengan informasi kesehatan yang terbaru. Hasil penelitian juga menunjukkan kecocokan tugas teknologi mempunyai peran dalam membentuk berbagi pengetahuan. Sebaiknya pengelola situs memberi penjelasan kepada pengguna untuk aktif memberikan informasi terkait dengan kesehatan. Hasil penelitian menjelaskan bahwa keterbukaan pengguna yang tinggi sehingga dapat merasakan manfaat dari situs Digimed.id. Sebaiknya pengelola situs melakukan pertemuan online untuk membahas informasi yang menarik dunia kesehatan. Hasil penelitian juga menyatakan bahwa pengaruh sosial mempunyai peran dalam membentuk kegunaan persepsi. Hal tersebut dapat diartikan bahwa pengelola situs agar mendorong pengguna untuk terbuka dengan informasi yang diterimanya.

2. Hasil penelitian juga mengindikasikan keterbukaan tidak mempunyai peran dalam membentuk berbagi pengetahuan. Hal ini dikarenakan rendahnya keterbukaan dokter dalam berbagi pengetahuan. Pengelola situs Digimed.id sebaiknya perlu melakukan pengembangan dengan bekerjasama dengan komunitas-komunitas tertentu agar situs ini dapat dipercaya dan dikenal di dunia kedokteran sehingga dokter akan cenderung terbuka untuk berbagi pengetahuan tentang kesehatan. Hasil penelitian juga menunjukkan bahwa pengaruh sosial tidak mempunyai peran dalam membentuk berbagi pengetahuan. Sebaiknya pengelola situs mengevaluasi pengguna kenapa pengguna enggan untuk berbagi pengetahuan sehingga dapat menurunkan niat untuk menggunakan pembelajaran online.
