**Lampiran 2. Bahan tanaman kenikir**

 A photograph showing a large pile of fresh, vibrant green kenikir leaves. The leaves are densely packed and appear to be laid out on a light-colored wooden surface, possibly a table or floor.	<p>Daun kenikir segar</p>
 A photograph showing a blue plastic basket filled with dried kenikir leaves. The leaves are dark green to brownish, indicating they have been dried. The basket is lined with a white cloth.	<p>Daun kenikir setelah dikeringkan</p>
 A photograph showing a white bowl filled with a fine, dark green powder. This powder is the result of grinding the dried kenikir leaves.	<p>Serbuk daun kenikir</p>
