

ABSTRAK

MAWAR BANOWATI, 2023, PROFIL PENGELOLAAN OBAT DI PUSKESMAS JATISRONO 1 TAHUN 2023, KARYA TULIS ILMIAH, PROGRAM STUDI D-III FARMASI, FAKULTAS FARMASI, UNIVERSITAS SETIA BUDI. Dibimbing oleh Apt. Jena Hayu Widyasti,S.Farm.,M.Farm.

Pengelolaan obat merupakan suatu rangkaian kegiatan yang menyangkut aspek seleksi, pengadaan, penyimpanan dan pendistribusian obat yang dikelola secara optimal untuk menjamin tercapainya ketepatan jumlah dan jenis perbekalan farmasi dengan memanfaatkan sumber yang tersedia seperti tenaga, dana, sarana dan perangkat lunak (metode dan tata laksana) dalam upaya mencapai tujuan yang ditetapkan diberbagai tingkat unit kerja. Tujuan penelitian ini adalah untuk mengetahui sistem pengelolaan obat di Puskesmas Jatisrono 1 tahun 2023.

Penelitian ini dilaksanakan dengan metode deskriptif kualitatif yaitu dengan melakukan wawancara kepada Penanggung Jawab Farmasi di Puskesmas Jatisrono 1 dengan menggunakan daftar tilik selama 1 bulan. Sampel penelitian adalah sistem pengelolaan obat yang meliputi perencanaan obat, permintaan obat, penerimaan obat, penyimpanan obat, pendistribusian obat, pemusnahan obat, pengendalian obat, dan pencatatan dan pelaporan obat.

Hasil penelitian menunjukan bahwa secara umum manajemen pengelolaan obat di Puskesmas Jatisrono 1 masuk kategori baik dengan skor perolehan 94,84%. Perencanaan obat memperoleh skor penilaian 80%, permintaan memperoleh skor penilaian 100%, penerimaan memperoleh skor penilaian 90%, penyimpanan memperoleh skor 97,22%, pendistribusian memperoleh skor penilaian 100%, pemusnahan memperoleh skor penilaian 66,67%, pengendalian memperoleh skor penilaian 100%, pencatatan dan pelaporan memperoleh skor penilaian 100%.

Kata kunci : pengelolaan obat, perencanaan, permintaan, penerimaan, penyimpanan, pendistribusian, pemusnahan, pengendalian, pencatatan dan pelaporan, Puskesmas Jatisrono 1.

ABSTRACT

MAWAR BANOWATI, 2023, DRUG MANAGEMENT PROFILE AT THE JATISRONO 1 HEALTH CENTER IN 2023, SCIENTIFIC PAPERS, THREE YEAR DIPLOMA IN PHARMACY, FACULTY OF PHARMACY, SETIA BUDI UNIVERSITY, SURAKARTA. Supervised by Apt. Jena Hayu Widyasti,S.Farm.,M.Farm.

Drug management is a series of activities involving aspects of selection, procurement, storage and distribution of drugs that are managed optimally to ensure the achievement of the correct quantity and type of pharmaceutical supplies by utilizing available resources such as personnel, funds, facilities and software (methods and procedures). in an effort to achieve the goals set at various levels of the work unit. The purpose of this study was to find out the drug management system at the Jatisrono 1 Health Center in 2023.

This research was conducted using a qualitative descriptive method by conducting interviews with the person in charge of Pharmacy at the Jatisrono 1 Health Center using a checklist.
