Dear Sunardi Sunardi:

It is a pleasure to accept your manuscript entitled "Utilization of Iron Scrap into Copperas and Rambutan (Nephelium lappaceum L.) Peel Extract into Environmentally Friendly Iron Nanoparticles for Hexavalent Chromium Removal and its Kinetics" in its current form for publication in Environmental Quality Management. The comments of the reviewer(s) who reviewed your manuscript are included at the foot of this letter.

Please note although the manuscript is accepted the files will now be checked to ensure that everything is ready for publication, and you may be contacted if final versions of files for publication are required.

The final version of your article cannot be published until the publisher has received the appropriate signed license agreement. Within the next few days the corresponding author will receive an email from Wiley's Author Services system which will ask them to log in and will present them with the appropriate license for completion.

If your paper contains SUPPORTING INFORMATION:

If you have supporting information for your manuscript, Wiley will host an approved version with the article online. Supporting information will not be copyedited, checked or changed from its original format. If you notice an error, please get in touch with your journal contact as soon as possible. Supporting information materials must be original and not previously published. If previously published, please provide the necessary permissions. You may also display your supporting information on your own or institutional website. Such posting is not subject to the journal's embargo date as specified in the copyright agreement.

The responsibility for scientific accuracy and file functionality remains entirely with the author(s). A disclaimer to this effect is displayed with any published supporting information.

This journal offers a number of license options for published papers; information about this is available here: <https://authorservices.wiley.com/author-resources/Journal-Authors/licensing/index.html>.
